Projects

SCRUM Master/Project leader
Patient Portal
Spring 2017

Website: https://patientportal.comeze.com

The PATIENT PORTAL is a web application that manages electronic patient records to provide rapid and efficient means to handle medical information of a clinic. Traditionally, a clinic uses paper-based patient records, which are expensive and take up space to maintain. Moreover, filing, retrieval of, and re-filing paper patient records are more labor intensive and less efficient compared to the electronic patient records. Using the PATIENT PORTAL shall alleviate these problems. The overall goal of the PATIENT PORTAL is to provide physicians, nurses, and clinical staff with a powerful, easy-to-use tool that securely assists them in gathering, storing, and manipulating Patients' information.

- *Developed in PHP*
- *Used MySQL databases*
- *Included User Profiles*
- *Easy to maintain*
- *Secure*

Web Admin/Developer
Child and Adolescent Policy Research Institute and The UTSA Mexico Center
Summer 2017

Websites: http://capri.utsa.edu/   http://mxcenter.utsa.edu/

The Child and Adolescent Policy Research Institute and The Mexico Center needed a new Website and I was in charge of creating it. Using WordPress and with some help from Giles-Parscale and The University of Texas at San Antonio's Office of Information Technology. I was able to completely renovate their old site. I had to maintain constant communications with all parties involved (UTSA, CAPRI Administration, and Giles-Parscale).

- *CMS WordPress*
- *PHP, CSS, and HTML*
- *Easy to maintain*
- *Very User Friendly*

Developer/Tester
Android Application- LawnTech
Summer 2017

An android app which allows homeowners to connect with lawn mower workers. Both sides should be able to rate each other. The app will allow both side to see the location (within map overview) and time range (after request the mower) of the service, and decide on an appropriate price (to be determined by stakeholder). This will allow mowers to find business and upon their own hours.

- Android Application
- Database
- GPS
- Personal, Customizable, Accounts

Allstate
You're in good hands.

Dear Hiring Manager:

I have had the privilege of collaborating closely with Bryan for several years. Throughout our professional relationship, Bryan has consistently proven himself to be an invaluable asset to our team, demonstrating outstanding professionalism and a commendable work ethic.

Bryan consistently exhibits a proactive and positive approach to his work, willingly engaging in tasks of varying complexity with enthusiasm. His commitment to our organization's shared purposes specifically his unwavering dedication to customer satisfaction and his dedication to the team's collective success, has been both evident and inspiring.

Bryan's willingness to openly share both his areas of expertise and his areas of improvement sets him apart as a truly collaborative team member. As the team lead, Bryan has displayed outstanding leadership qualities. His contributions extend beyond his immediate responsibilities and include mentoring new hires and providing ongoing guidance for his direct teammates and others within the entire CAT team.

Currently, Bryan plays a pivotal role in facilitating training sessions and providing feedback to enhance the development of the new on-site training program. Furthermore, his active involvement in various NCT committees underscores his commitment to continuous improvement and his willingness to contribute to the advancement of our organization.

In summary, Bryan's excellent performance, coupled with his exceptional customer service skills and dedication to our team's success, make him an essential member of our organization. It is with great confidence that I endorse Bryan Aniekwena for any future endeavors, knowing that he will continue to excel and positively impact those around them.

Please feel free to contact me at (847) 323-3556, should you like to discuss Bryan further.

Sincerely,

Teirmu Hernandez
